AI Conversation Designer ♦ Product Designer ♦ UX/UI Writer

AI design specialist with a decade of shipped experiences across agentic products, voice assistants, chatbots, and multimodal wearables at Meta, Intuit, and PullString. Equally at home in Figma, Docs, or Terminal, crafting intuitive and high-quality interactions and the systems behind them.

- **Systems-level thinking.** Built voice and tone frameworks, taxonomies, prompts, flows, and response templates to make AI interactions feel natural.
- **AI fluency.** Shaped multiple multimodal AI experiences on smart glasses and enterprise chatbots, launching new products and features in high-urgency, ambiguous spaces.
- **Cross-functional partner.** Worked closely across disciplines, with a track record of defining new product spaces and evangelizing design principles across organizations.

META Remote | 2021-2026

Senior Product & Conversation Designer

Led conversation and voice UX design for AI smart glasses experiences across multimodal, live AI, autocapture, QR payments and more. Shaped agent identity, voice and tone.

Promoted with consistent *Exceeded Expectations* ratings across review cycles.

PROJECTS

- **Live AI.** Lead designer crafting end-to-end voice flows, invocation systems, and NLU training utterances. Co-led launches on Ray-Ban Meta smart glasses, defining session openers, error and edge cases, and TTS responses tuned from user feedback.
- **Autocapture.** Design lead for the on-frame Autocapture experience integrating a constellation of devices and leveraging multimodal AI to automatically capture high-interest, pertinent moments.
- **Mentorship.** Scaled conversation design knowledge across Meta Reality Labs by mentoring senior designers, co-presenting an RL-wide Design Talk on Conversation Design, and built a VUI Resource Hub to onboard Voice PMs.

INTUIT Mountain View, CA | 2018-2021

Principle Content & Conversation Designer

Led content and conversation design strategy for QB Assistant. Translated complex financial concepts into clear, compliant, self-help experiences for small business owners. Responsible for persona, voice and tone, conversational flows, content, and intents.

PROJECTS

- **QB Assistant.** Grew the capabilities and reach of the in-product chatbot with a focus on self-help, product insights, & proactivity.
- **QuickBooks.** Content strategy and design for various on-screen experiences.
- **Thought leader.** Evangelized conversation design across Intuit, leading workshops, persona development sessions, and content salons.

PULLSTRING San Francisco, CA | 2015-2018

UX Designer & Writer

Designed, wrote, and implemented 20+ interactive products across multiple surfaces including chatbots, smart speakers, SMS, and more. Responsible for e2e design strategy and execution, persona and narrative development, voice and tone, and response and intent management.

PROJECTS

- **Mattel.** Designed a neural network, coded conversation modules, and wrote 10,000 lines of content for first interactive Barbie, voted a top TIME Toy of the Year.
- **Google Home & Alexa.** Built two family-friendly kids games. Led end-to-end production of a gameshow skill; redesigned intent system for SpongeBob skill.
- **Humani.** Co-created Jessie Humani, a 20-hour interactive SMS game featured at 2016 F8 Conference; led branching narrative design, writing, coding, and QA.

EXPERTISE

Human-Computer Interaction
Microcopy & UI Writing
User Flow & IA
Multimodal Interaction Design
Content Design Systems
Glossary Development
AI Output Evaluation
Onboarding & Error Design

Conversation Design
Stack fluency: NLP, ASR, TTS
Intent & Rules Engines
Intent System Scripting
Logic-Based Conditions
Response Templates
Prompt Engineering
System Prompt Writing
Agent Behavior Design

Content Development
